Chapter 2 Introduction to ICD 10 CM and ICD 10 PCS Coding

MULTICHOICE

1. The *International Classification of Diseases (ICD)* is published by the World Health Organization (WHO) and is used to classify _______ data from death certificates.
   
   (A) disease
   (B) morbidity
   (C) mortality
   (D) procedure

   Answer: (C)

2. The *International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM)* was developed in the United States and is used to code and classify _______ data from inpatient and outpatient records, including physician office records.

   (A) morbidity
   (B) mortality
   (C) procedure
   (D) service

   Answer: (A)

3. All health care settings use ICD-10-CM to report _______.

   (A) diagnoses
   (B) equipment
   (C) procedures (D) services

   Answer: (A)

4. ICD-10-PCS is used to code and classify _______ data from hospital inpatient records only.
(A) diagnosis

(B) equipment
(C) procedure
(D) signs/symptoms

**Answer:** (C)

5. The abbreviation for ICD-10-CM and ICD-10-PCS is ________.
   (A) ICD-10  
   (B) ICD-10-CM
   (C) ICD-10-CM/ICD-10-PCS
   (D) ICD-10-CM/PCS

**Answer:** (D)

6. Provider offices and outpatient health care settings use ________ to code procedures and services.
   (A) CPT
   (B) DSM-5
   (C) ICD-10-CM
   (D) ICD-10-PCS

**Answer:** (A)

7. The term *clinical* emphasizes the ICD-10-CM modification's intent, which is to describe the clinical picture of the patient, which means the codes must be more ________ than those needed only for statistical groupings and trend analysis.
   (A) broad
   (B) equivocal
   (C) general
   (D) precise

**Answer:** (D)

8. ICD-10-CM and ICD-10-PCS (or ICD-10-CM/PCS) incorporate much greater specificity and clinical information, resulting in ________.
   (A) enhanced ability to conduct public health surveillance
   (B) increased need to include supporting documentation with claims
(C) lack of sensitivity when refining grouping and reimbursement methodologies

Answer: (A)

9. ICD-10-CM/PCS also includes updated medical terminology and classification of diseases, provides codes to allow comparison of mortality and morbidity data, and provides better data for

   (A) designing payment systems
   (B) eliminating the need for research
   (C) increasing fraud and abuse
   (D) measuring care furnished to facilities

Answer: (A)

10. To prepare for implementation of ICD-10-CM/PCS, health care professionals have assessed their coding staff to determine whether they require education and training to effectively communicate with members of the medical staff. Which is an example of a communication method with medical staff about patient record documentation and coding?

   (A) coding guidelines
   (B) disease index
   (C) patient record
   (D) physician query

Answer: (D)

11. ICD-10-CM was expanded (as compared with previous classifications) to

   (A) include health-related conditions
   (B) limit the length of a code to six characters
   (C) require a seventh character for all codes
   (D) standardize insurance claims processing

Answer: (A)

12. Companies publish __________, which incorporate software search features to facilitate the location and verification of diagnosis and procedure codes.
(A) coding manuals
(B) calculators
(C) encoders
(D) groupers

Answer: (C)

13. Which federal government agencies serve on the ICD-10-CM/PCS Coordination and Maintenance Committee?

(A) AAPC and AMA
(B) AHA and AHIMA
(C) CDC and HHS
(D) CMS and NCHS

Answer: (D)

14. Which federal legislation requires all code sets to be valid at the time services are provided? (A) ACA

(B) MMA
(C) OBRA
(D) TEFRA

Answer: (B)

15. Which is a face-to-face contact between a patient and a health care provider who assesses and treats the patient's condition?

(A) condition
(B) diagnosis
(C) disease
(D) encounter

Answer: (D)
16. Which is the determination that a service or procedure rendered is reasonable and necessary for the diagnosis or treatment of an illness or injury?

(A) claims processing
(B) code assignment
(C) medical necessity
(D) third-party payment

Answer: (C)

17. Chapters in ICD-10-CM classify diseases and injuries according to specific body systems as well as ________.

(A) anatomy
(B) etiology
(C) procedure
(D) specialty

Answer: (B)

18. ICD-10-CM categories contain ________ characters.

(A) three
(B) four
(C) five
(D) six

Answer: (A)

19. ICD-10-CM subcategories contain ________ characters.

(A) three or four
(B) four, five, or six
(C) five or six
(D) seven

Answer: (B)
20. ICD-10-CM uses an "X" in the ________ character(s) location as a placeholder to allow for further expansion.
   (A) fifth only
   (B) fifth or sixth
   (C) sixth only
   (D) seventh
   Answer: (B)

21. ICD-10-CM codes have a maximum of _____ characters.
   (A) five
   (B) six
   (C) seven
   (D) eight
   Answer: (C)

22. The ICD-10-CM Index to Diseases and Injuries is organized according to:
   (A) categories, subcategories, and subclassifications.
   (B) general equivalency mappings (GEMs).
   (C) main terms, subterms, second qualifiers, and third qualifiers.
   (D) sections, tables, and essential and nonessential modifiers
   Answer: (C)

23. The ICD-10-CM Index to Diseases and Injuries is a(n) ________ list of main terms and their corresponding codes.
   (A) alphabetic
   (B) alphanumeric
   (C) numeric
   (D) payer-based
   Answer: (A)

24. The Table of Drugs and Chemicals is an alphabetic index of medicinal, chemical, and biological
(A) injuries and morbidities that are organized in alphabetic order
(B) neoplasms that contain columns for primary, secondary, and so on
(C) substances that result in poisonings and external causes of adverse effects
(D) treatments for accidental overdoses, poisonings, and unspecified causes Answer: (C)

25. The ICD-10-CM Index to External Causes is a separate index from the Index to Diseases and Injuries that contains main terms for external causes of ________ in alphabetic order.

(A) comorbidities and complications
(B) injuries and morbidities
(C) procedures and surgery
(D) qualified conditions

Answer: (B)

26. ICD-10-CM index main terms are printed in ________ type, and subterms and qualifiers are indented below main terms.

(A) boldfaced
(B) italicized
(C) quoted
(D) underlined

Answer: (A)

27. Which are qualifying terms located after ICD-10-CM index main terms, which do not have to be included in the diagnostic or procedural statement for the code number listed after the parentheses to be assigned?

(A) essential modifiers
(B) inclusion terms
(C) nonessential modifiers
(D) subterms

Answer: (C)
28. Which qualify a main term in the ICD-10-CM index by listing alternative sites, etiology, or clinical status?  
(A) comorbidities  
(B) exclusions  
(C) nonessential modifiers  
(D) subterms  
**Answer:** (C)

29. ICD-10-PCS uses a multiaxial 7-character _______ code structure that provides a unique code for all substantially different procedures.  
(A) alphabetic  
(B) alphanumeric  
(C) decimal  
(D) numeric  
**Answer:** (B)

30. The development of ICD-10-PCS incorporates an attribute of completeness, which means  
(A) as new procedures are developed, they can be easily incorporated as unique codes  
(B) codes consist of independent characters, with each individual axis retaining its meaning across broad ranges of codes to the extent possible  
(C) definitions of the terminology used, and while the meaning of specific words varies in common usage, each term is assigned a specific meaning  
(D) there are unique codes for all substantially different procedures  
**Answer:** (D)

31. The development of ICD-10-PCS incorporates an attribute of expandability, which means  
(A) as new procedures are developed, they can be easily incorporated as unique codes  
(B) codes consist of independent characters, with each individual axis retaining its meaning across broad ranges of codes to the extent possible  
(C) definitions of the terminology used, and while the meaning of specific words varies in common usage, each term is assigned a specific meaning  
(D) there are unique codes for all substantially different procedures **Answer:** (A)
32. The development of ICD-10-PCS incorporates a multiaxial attribute, which means _______.

(A) as new procedures are developed, they can be easily incorporated as unique codes

(B) codes consist of independent characters, with each individual axis retaining its meaning across broad ranges of codes to the extent possible

(C) definitions of the terminology used are included, and while the meaning of specific words varies in common usage, each term is assigned a specific meaning

(D) there are unique codes for all substantially different procedures

Answer: (B)

33. The development of ICD-10-PCS incorporates an attribute of standardized terminology, which means _______.

(A) as new procedures are developed, they can be easily incorporated as unique codes

(B) codes consist of independent characters, with each individual axis retaining its meaning across broad ranges of codes to the extent possible

(C) definitions of the terminology used are included, and while the meaning of specific words varies in common usage, each term is assigned a specific meaning

(D) there are unique codes for all substantially different procedures

Answer: (C)

34. Which is a general principle associated with ICD-10-PCS?

(A) Diagnostic information is included in procedure code descriptions.

(B) Level of specificity is enhanced so that all procedures currently performed can be assigned a specific code.

(C) Not otherwise specified (NOS) options are provided so a minimal level of specificity is required for each component of the procedure.

(D) Use of not elsewhere classified (NEC) is used extensively so that all significant components of a procedure are included.

Answer: (B)

35. The ICD-10-PCS coding manual contains an index and _________.

(A) external causes (B) neoplasms

(C) medications

(D) tables
36. *Official ICD-10-CM and ICD-10-PCS Guidelines for Coding and Reporting* should be used as a(n) when coding from ICD-10-CM and ICD-10-PCS.

(A) CAC software application
(B) coding manual
(C) companion document
(D) encoder

Answer: (C)

37. With implementation of the ICD-10-CM and ICD-10-PCS coding systems, ICD-9-CM became a

(A) general equivalence mapping
(B) legacy coding system
(C) partial code freeze
(D) prospective payment system

Answer: (B)

38. General equivalence mappings (GEMs) are published annually and serve as a ________ for ICD-9-CM and ICD-10-CM/PCS.

(A) crosswalk
(B) legal document
(C) payment system
(D) reimbursement methodology

Answer: (A)

39. Go to ICD-10-CM index main term *Stricture*, and identify the subterm.

(A) aqueduct of Sylvius (congenital)
(B) hydrocephalus
(C) Spina bifida
(D) Stenosis

Answer: (A)
40. Go to ICD-10-PCS table 001, and identify the code for open procedure of the cerebral ventricle to insert a pleural cavity shunt using a synthetic substitute.

(A) 00160J4  
(B) 00160J6  
(C) 001U0J4  
(D) 001U0J6

Answer: (A)
